in PCMB 12th HSC. *percentage: 85.67%*.

Project Work

- **LiveStock-CattleHub (Link) :** A platform using React, Firebase, and Bootstrap, where farmers and buyers can purchase and sell cattle. The platform features a blog section providing detailed cow information and a chatbot integrated with the Gemini API, enhancing user engagement and offering real-time assistance for transactions and inquiries.

- **E-learning Platform (sourceCode):** Developed an **eLearning platform** using the MERN stack (MongoDB, Express.js, React.js, Node.js) where learners can purchase and access courses. The platform enables seamless course transactions and delivers a user-friendly interface for an enhanced learning experience.

- **Knowledge Checker Quiz (Link) :** Developed **Knowledge Checker Quiz**, a platform featuring 10 quizzes on the history of India, where users have 40 seconds to complete each quiz. The page reloads after the time expires, resetting answers.

Extracurricular Activity & certificate
